

I would be very distressed if K-Love were no longer able to be aired. This station gives me positive messages and music all day long in a world where most stations are filled with foul words, suggestive and or offensive music. I believe that those of us who do not want to listen to all the trash need to have an alternative that actually changes lives! I know many people in my community who also listen to K-Love and many teenagers who do not have to be bombarded with secular music and they all have testimonies to back this up. Please don't take our station away!!!!
